EDUCATIONAL SUPPORT SYSTEM

Connecting teachers and families

Follow one Mathematics quiz from the teacher’s class record to a conversation at home.

Grade 7 Mathematics

Fractions quiz

8/10

A fictional classroom example

STUDENT PERSPECTIVE

Everyday Hurdles Students Face

A student coming home from school may remember that there was a quiz but still have questions about what to do next.

AFTER MATHEMATICS CLASS

How did I do?

My progress shows the results my teacher has released.

What should I review?

Learning materials holds the worksheets and reviewers shared with me.

When is the next class?

My schedule shows the day and time to prepare for.

FAMILY PERSPECTIVE

When Families Need an Update

A parent can be far from home, or sitting beside their child, and still be unsure where to start.

A CONVERSATION AT HOME

“How did the quiz go?”

A released score gives the family something concrete to talk about.

“Which questions were tricky? Let’s try one together.”

TEACHER PERSPECTIVE

A Teacher’s School Day

Open the Teaching desk to see the next subject, section and time. Open attendance from that class.

NEXT CLASS

Mathematics

Grade 7 · Friday · 8:00–9:00 AM

Elementary

The adviser takes one daily attendance record for the advisory section.

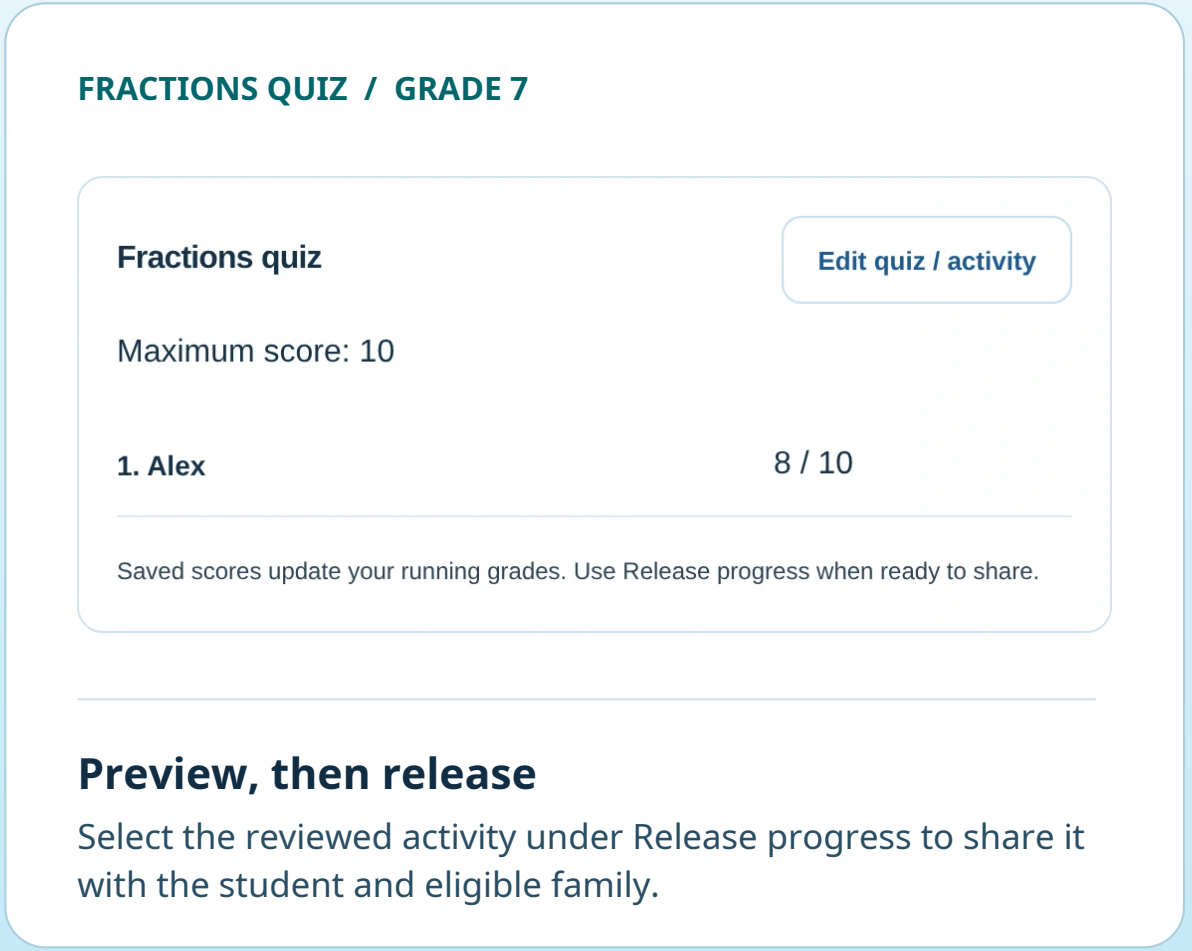
Junior High, Senior High and college

Teachers record attendance for each subject meeting. Unmarked rows stay blank.

CLASS RECORD

From a Quiz Score to a Shared Result

Saving a score keeps it in the teacher's class record. The teacher decides when the result is ready to share.

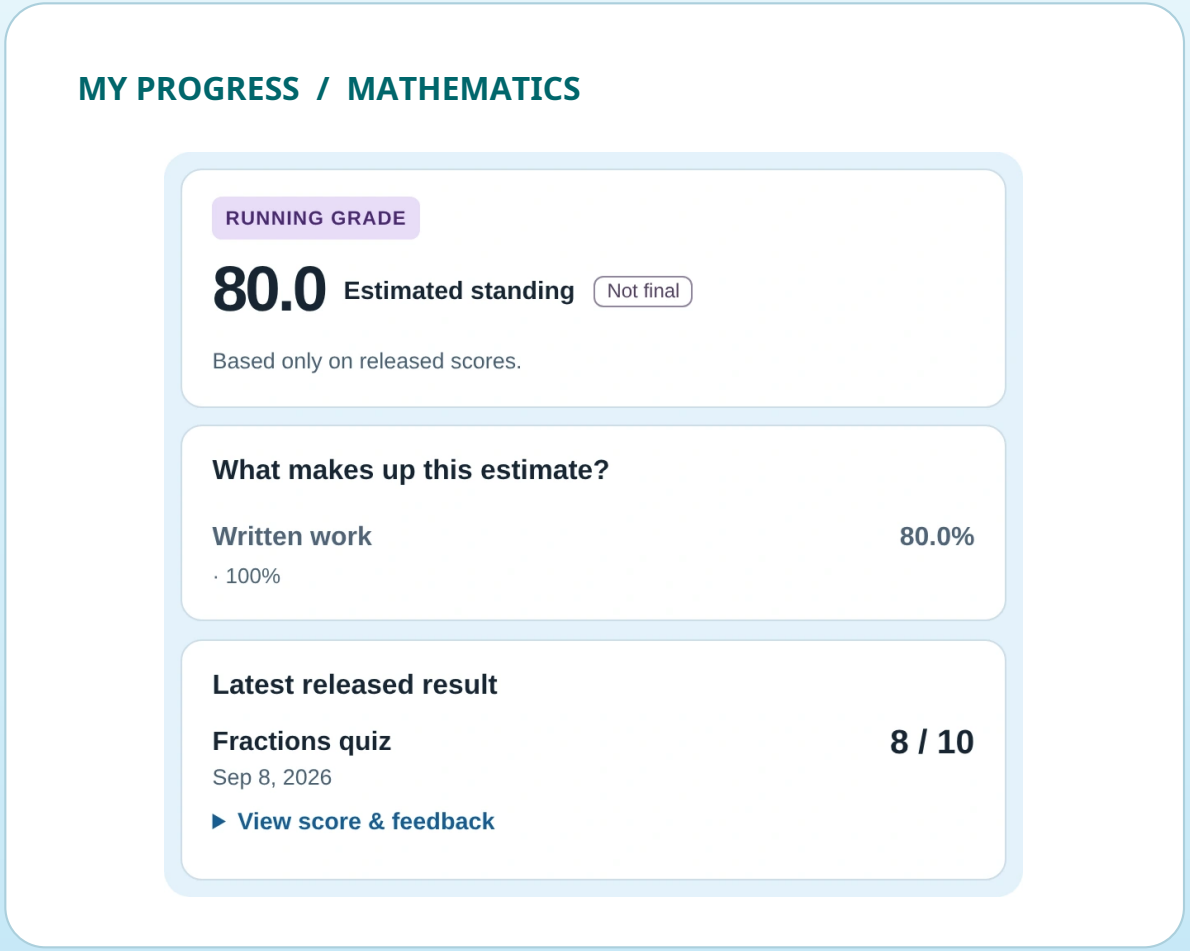


STUDENT VIEW

What the Student Sees

A student can check the quiz result and open the reviewer their teacher shared for the next lesson.

A running grade uses the scores released so far. It may change during the term.

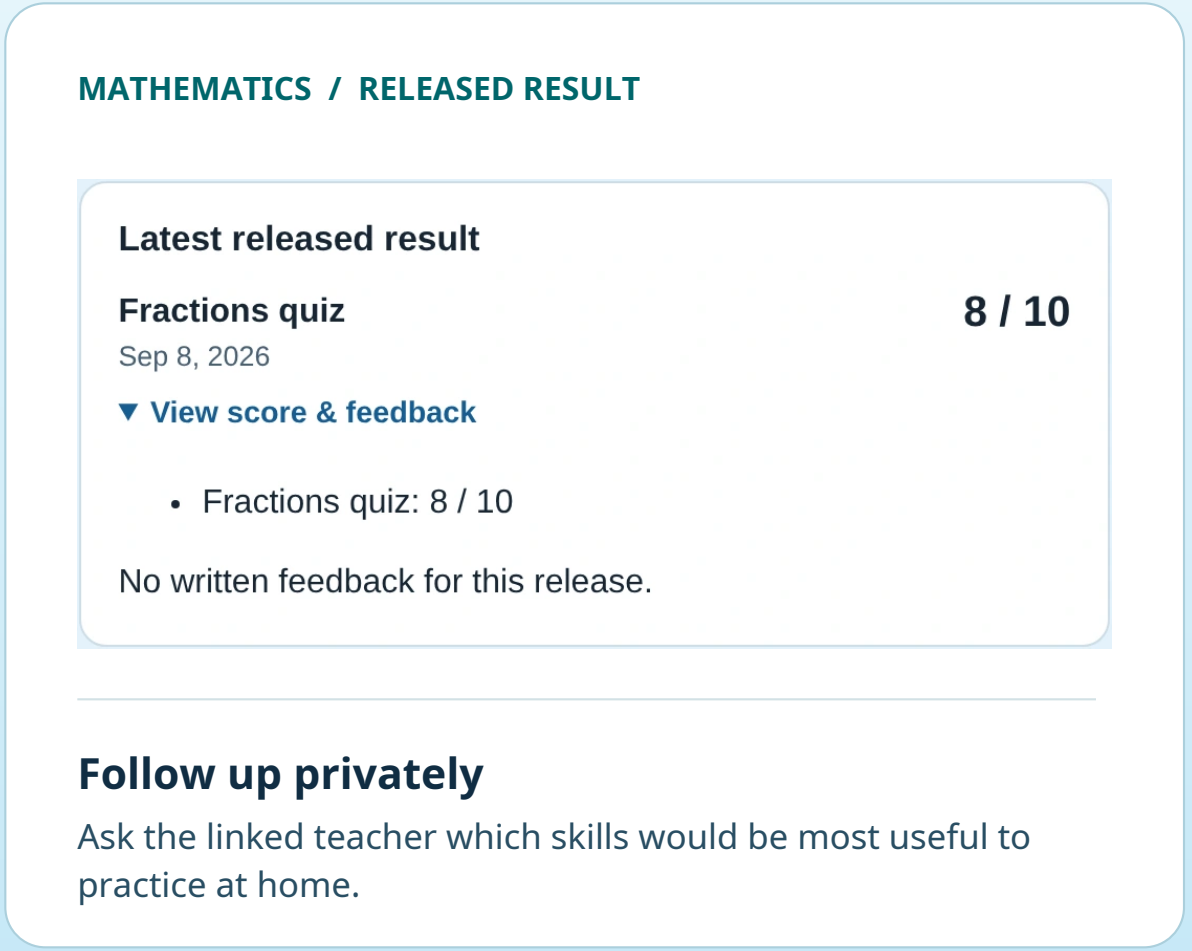


FAMILY HOME

What the Parent Sees

Choose a linked child to see their class schedule, shared attendance and released results.

At 18, the student’s progress becomes private until they choose to share it with their parent again.



CLASS COMMUNICATION

Inside the Classroom

MESSENGER

A private question

Linked accounts can message one another. A parent can follow up with a teacher about their own child’s work and see when a message has been read.

ACTIVITY BOARD

A class activity

A classroom photo is visible to the linked classroom community. Families have three days to save a photo before it is removed from the board.

SCHOOL PROPOSAL

Bringing Warmelan to Your School

Choose a participating section and teachers. Set up a class, link families, then try attendance and one quiz release together.

PROPOSED ANNUAL ACCESS

₱1,000

per participating student per year

Example school budget

500 participating students × ₱1,000 = ₱500,000 per year.
Teacher and parent access is free.

A district quote uses the number of students participating in that district.

NEXT STEPS

Explore Warmelan

Open the app on your own device, or keep the presentation and printable materials for a school or family conversation.
